## GY-ZH-300/400 Side Load Packaging Machine

GY-ZH-300/400 侧推装盒机

### Product Introduction 产品介绍

GY-ZH-300/400 automatic high speed packing machine is designed by our company on the basis of the introduction of foreign advanced technology and is manufactured in strict accordance with the "GMP" requirements of the pharmaceutical industry. With high efficiency, high performance production capacity, specification folding and transfer, box forming, rear push mechanism related technology to meet the European and American standards; The simple appearance design and the structure of the rear continuous push material make the operation and maintenance more convenient; Three equal double planetary wheel rotating outward opening box with a double preforming device to ensure the box fully stretched forming.

This machine is an automatic continuous high speed packing machine with high performance products integrating machine, light, electricity and gas. It is suitable for automatic packing of aluminum plastic bubble cover plate, bottle, hose, soft double aluminum and bag-like items, and can form a packaging production line with it.

GY-ZH-300/400 型全自动高速装盒机系我公司在引进国外先进技术的基础上自行创新设计的机型，并严格按医药行业“GMP”要求制造。具有高效率、高性能的生产能力，说明书折叠及传送、纸盒成形、后部推料机构相关技术达到欧美标准；简洁式的外观设计和后部连续式推料的结构使操作、维护更加简便；三等分双行星轮旋转式向外开盒并具在两次预形成装置确保纸盒的完全撑开成形。

该机是款全自动连续式高速装盒机，集机、光、电、气一体化的高性能产品，适用于铝塑泡罩板、瓶子、软管、软双铝、袋状物品的自动装盒，并可与其配套形成包装生产线。

## Technical Parameters 技术参数

Productivity (box/min) 生产力 (盒/分钟)	≤350box/min
Max. carton size (mm) 最大纸盒尺寸 (毫米)	160×100×50
Min. carton size (mm) 最小纸盒尺寸 (毫米)	65×25×15
Carton quality 纸盒质量	250-350/m <sup>2</sup>
Max. instruction size (length × Wide) 最大说明书尺寸 (长×宽)	260×180
Min. specification size (length × Wide) 最小说明书尺寸(长 x 宽)	110×100
Instruction quality 说明书质量	55-65/m <sup>2</sup>
Gas consumption 耗气量	≥5m <sup>3</sup> /h
Total power 总功率	6.9KW
Power Supply 电源	380V 50Hz
Overall dimension (mm) 外形尺寸 (毫米)	5100×1700×180
Weight (kg) 重量 (千克)	3500
